EXAMINER'S COMMENT

In view of applicant's reply filed 12 April 2005 amending claims 1, 8 and 12, and the cancellation of claim 3, the objection(s) to claims 1, 3, 8 and 12 indicated in the prior Office action mailed 11 January 2005 has been withdrawn.

In view of applicant's amendment to the specification, where "an allowance" has been replaced with "play", *to more clearly describe that there is play between to engagements*, which play is understood to mean to move or operate freely within a bounded space defined by the engagements, the objection to the specification indicated in the prior Office action has been withdrawn.

In view of applicant's amendment to page 13 of the specification where further clarification has been provided, the objection to the specification, under 37 CFR 1.71 for failing to provide an enabling disclosure, and the rejection under 35 U.S.C. 112, first paragraph,, each have been withdrawn.

In view of applicant's remarks regarding the drawings, in which "Fig. 11 clearly shows the convex portion 32 of the leaf spring 4" and that "[t]he specification clearly describes the leaf spring shown in Fig. 11 as having the convex portions 32", the applicant's remarks are held to rely upon the broadest meaning of the term *convex* to at least define to a boundary that curves or bulges outward, as that portion 32 which is shown in Fig. 11. Therefore, the drawing objection indicated in the prior Office action has been withdrawn.

In view of applicant's amended to clarify the claim rejections under 35 U.S.C. 112, second paragraph, indicated in the prior Office action have been withdrawn.

In view of applicant's reply amending claims 1, 3, and 6-12 in accordance to the allowable subject matter indicated in the prior Office action, the claim rejection(s) under 35 U.S.C. 102 indicated in the prior Office action have been withdrawn. New claims 13-16 are each being dependant either directly or indirectly from the amended independent claims 1 and 3.

In view of the above amended claims and remarks, claims 1, 3 and 6-16 are allowed.
